

Clever Car Solutions

OUR SERVICE – YOUR PURCHASING ADVANTAGE!

Dear Sirs,

We are an Austrian company for giving support to car dealers inside European Community, with office based in Salzburg/Austria.

The European community enables every enterpriser, but also the final customer to decide by himself, at which source as well as in which country inside the European community he wants to consume, certainly this is also valid in the same way for the automobile trade.

By the different fiscal systems and different promotions of the car manufacturers in the different countries, there are considerable net price differences possible.

In times of continuous reductions of dealer margins through the car manufacturers, it is our goal to observe the markets currently and to offer our customers interesting purchasing possibilities, to guarantee the dealers improved contribution margins on the one hand and to strengthen the competitiveness in the own market on the other hand.

We arrange purchasing possibilities for the car trade of attractive passenger cars and light commercials of all car brands, as well young used cars of the different European countries.

However we don't only support you in sourcing, but also in organizing transports with our renowned logistics partners. In return we arrange also your offers to our international customers, as far as you are offering us interesting proposals.

We will be very glad, if you would contact us for possible inquiries or for concrete offers.

With best regards

Mag. Josef Ballmann

Managing Director
